Standard 1: Scientific and Theoretical Knowledge
Physical education teacher candidates know and apply discipline-specific scientific and theoretical concepts critical to the development of physically educated individuals.

Elements – Teacher candidates will:
1.1 Describe and apply physiological and biomechanical concepts related to skillful movement, physical activity and fitness.
1.2 Describe and apply motor learning and psychological/behavioral theory related to skillful movement, physical activity and fitness.
1.3 Describe and apply motor development theory and principles related to skillful movement, physical activity and fitness.
1.4 Identify historical, philosophical and social perspectives of physical education issues and legislation.
1.5 Analyze and correct critical elements of motor skills and performance concepts.

Standard 2: Skill-Based and Fitness-Based Competence*
Physical education teacher candidates are physically educated individuals with the knowledge and skills necessary to demonstrate competent movement performance and health-enhancing fitness as delineated in the NASPE K – 12 Standards.

Elements – Teacher candidates will:
2.1 Demonstrate personal competence in motor skill performance for a variety of physical activities and movement patterns.
2.2 Achieve and maintain a health-enhancing level of fitness throughout the program.
2.3 Demonstrate performance concepts related to skillful movement in a variety of physical activities.

* Without discrimination against those with disabilities, physical education teacher candidates with special needs are allowed and encouraged to use a variety of accommodations and/or modifications to demonstrate competent movement and performance concepts (modified/adapted equipment, augmented communication devices, multi-media devices, etc.) and fitness (weight training programs, exercise logs, etc.).
**Standard 3: Planning and Implementation**  
Physical education teacher candidates plan and implement developmentally appropriate learning experiences aligned with local, state and national standards to address the diverse needs of all students.

Elements – Teacher candidates will:
3.1 Design and implement short- and long-term plans that are linked to program and instructional goals, as well as a variety of student needs.
3.2 Develop and implement appropriate (e.g., measurable, developmentally appropriate, performance-based) goals and objectives aligned with local, state and/or national standards.
3.3 Design and implement content that is aligned with lesson objectives.
3.4 Plan for and manage resources to provide active, fair and equitable learning experiences.
3.5 Plan and adapt instruction for diverse student needs, adding specific accommodations and/or modifications for student exceptionalities.
3.6 Plan and implement progressive and sequential instruction that addresses the diverse needs of all students.
3.7 Demonstrate knowledge of current technology by planning and implementing learning experiences that require students to appropriately use technology to meet lesson objectives.

**Standard 4: Instructional Delivery and Management**  
Physical education teacher candidates use effective communication and pedagogical skills and strategies to enhance student engagement and learning.

Elements – Teacher candidates will:
4.1 Demonstrate effective verbal and non-verbal communication skills across a variety of instructional formats.
4.2 Implement effective demonstrations, explanations and instructional cues and prompts to link physical activity concepts to appropriate learning experiences.
4.3 Provide effective instructional feedback for skill acquisition, student learning and motivation.
4.4 Recognize the changing dynamics of the environment and adjust instructional tasks based on student responses.
4.5 Use managerial rules, routines and transitions to create and maintain a safe and effective learning environment.
4.6 Implement strategies to help students demonstrate responsible personal and social behaviors in a productive learning environment.
### Standard 5: Impact on Student Learning
Physical education teacher candidates use assessments and reflection to foster student learning and inform decisions about instruction.

Elements – Teacher candidates will:
- **5.1** Select or create appropriate assessments that will measure student achievement of goals and objectives.
- **5.2** Use appropriate assessments to evaluate student learning before, during and after instruction.
- **5.3** Utilize the reflective cycle to implement change in teacher performance, student learning and instructional goals and decisions.

### Standard 6: Professionalism
Physical education teacher candidates demonstrate dispositions essential to becoming effective professionals.

Elements – Teacher candidates will:
- **6.1** Demonstrate behaviors that are consistent with the belief that all students can become physically educated individuals.
- **6.2** Participate in activities that enhance collaboration and lead to professional growth and development.
- **6.3** Demonstrate behaviors that are consistent with the professional ethics of highly qualified teachers.
- **6.4** Communicate in ways that convey respect and sensitivity.

Note: Throughout the standards and elements and rubrics, which follow, the term teacher candidate refers to pre-service teachers in an initial preparation program. In the rubrics, the term teacher candidate is abbreviated to “TC.”
### Sample Rubrics

**Standard 1: Scientific and Theoretical Knowledge**
Physical education teacher candidates know and apply discipline-specific scientific and theoretical concepts critical to the development of a physically educated person.

<tr>
<td>3.6 Plan and implement progressive, sequential instruction that addresses the diverse needs of students.</td>
<td>Learning tasks are inappropriate for the developmental levels of students by being either too difficult or too easy. TC fails to make adjustments to tasks to accommodate students’ developmental levels by increasing or decreasing task complexity. The sequence of the lesson may be illogical, with gaps in progressions. Learning/practice tasks are arranged randomly in the lesson, with steps between progressions either too large or too small to facilitate skill mastery. TC fails to pre-assess students to determine an appropriate starting point. Students are grouped for convenience (by gender, age, etc.) without consideration of the objectives for the lesson.</td>
<td>TC considers the context of the teaching environment and that the context is reflected in the planning and implementation of lessons. Multiple methods are used to convey content. TC groups students in a variety of ways, based on objectives for lessons. All students are expected to learn and achieve mastery. Learning tasks are appropriate for the developmental levels of students by providing appropriate challenges for students (tasks are neither too easy nor too difficult). TC makes some adjustments to tasks to accommodate students’ developmental levels, but adjustments are across the entire class and not individualized. Progressions are sequential and progressive, with no gaps. Task complexity is appropriate for skill and developmental levels of students. The sequence of the lesson(s) is logical, with few gaps in progressions. Learning/practice tasks are arranged in sequential and progressive steps to facilitate learning. TC pre-assesses students to determine an appropriate starting point.</td>
<td>Learning objectives and tasks are appropriate for the developmental level of students by providing appropriate challenges for students (tasks are neither too easy nor too difficult). TC makes adjustments to tasks based on student performance (increasing or decreasing task complexity). Adjustments are both across the entire class and individualized. The sequence of the lesson is logical, with no gaps in progressions. Learning/practice tasks allow students to begin and end at different levels based on individual readiness. Progressions are sequential, with opportunities for students to extend tasks to increase or decrease the challenge. TC individualizes starting points for students based on student pre-assessment. TC sets high expectations for all students.</td>
</tr>

<th>Acceptable</th>
<th>Target</th>
</tr>
</thead>
<tbody>
<tr>
<td>4.1 Demonstrate effective verbal and non-verbal communication skills across a variety of instructional formats.</td>
<td>TC’s verbal interactions have an occasional mistake in grammar, poor diction and/or inappropriate language for the age and skill level of students. The pacing of verbal communication is consistently either too fast or too slow, and there is little variation in tone and inflection. All communication is verbal, with no other form of communication used.</td>
<td>TC’s verbal interactions have an occasional mistake in grammar or the occasional use of an inappropriate or regional colloquialism. Pacing of verbal communication is neither too fast nor too slow, with some variation in tone and inflection. Verbal and non-verbal communication is used throughout the lesson. TC uses alternative forms of communication, such as task sheets, bulletin boards, etc., to communicate content.</td>
<td>TC uses proper grammar and diction. Pacing of verbal communication is appropriate for age group (neither too fast nor too slow) and is varied in tone and inflection. Multiple forms of communication, such as task sheets, bulletin boards, etc., are used throughout the lesson.</td>
</tr>
<tr>
<td>4.2 Implement effective demonstrations, explanations and instructional cues and prompts to link physical activity concepts to appropriate learning experiences.</td>
<td>TC either provides no demonstration or an incorrect demonstration during the instructional episode. TC provides either too few or too many instructional cues or prompts for the developmental level of students. Instructional cues are incorrect or do not identify key elements of the skill/strategies.</td>
<td>TC provides an effective demonstration/model during the instructional episode. TC creates instructional cues or prompts that identify key elements of the skill/strategies and are appropriate for the developmental level of students. TC repeats the cues/prompts multiple times during the lesson.</td>
<td>TC provides an effective demonstration/model during the instructional episode. TC creates innovative instructional cues/prompts to facilitate learning, including such things as rhymes or finding ways to make abstract concepts concrete. TC consistently repeats the instructional cues or prompts throughout the lesson.</td>

<tbody>
<tr>
<td><strong>4.5 Use managerial rules, routines and transitions to create and maintain a safe and effective learning environment.</strong></td>
<td>TC uses ineffective rules or has difficulty in implementing classroom rules. Rules lack clarity or are stated in language that is inappropriate for the age group. Managerial routines are not present, and no systems are in place for distribution/return of equipment, attendance, finding a partner or creating a group, and other gymnasium routines. Arrangement of students does not allow them to practice tasks. Spacing for tasks impedes student practice (too close or too far apart). There is not a clear stop-and-start signal in place. Behavior issues are addressed insufficiently or ineffectively.</td>
<td>TC has established rules for the classroom and enforces these rules consistently. Rules are stated in developmentally appropriate language. Managerial routines are present, and a system is in place for distribution/return of equipment, attendance, finding a partner or creating a group, and other gymnasium routines. There is a clear stop-and-start signal in place. Effective use of space is evident in the lesson (students are neither too far nor too close together). Behavior issues are addressed immediately, efficiently and effectively by such proactive strategies as student prompts. TC creates a supportive environment that invites student participation.</td>
<td>TC has established rules that are logical, reasonable and developmentally appropriate, with clear consequences for discipline issues. Rules are enforced consistently. Managerial routines are present and innovative, such as multiple equipment-distribution points. Stop-and-start signals are clear and creative. Space use is maximized through careful planning, with students participating in the organization of the space for their use. Students consistently self-manage their behavior during lessons. TC creates a supportive environment in which students are encouraged and supported.</td>
</tr>
<tr>
<td><strong>4.6 Implement strategies to help students demonstrate responsible personal and social behaviors in a productive learning environment.</strong></td>
<td>TC relies on direct instruction for each lesson. Students are not allowed to make decisions in the context of the class. Students’ only choice is to participate or not to participate in the lesson.</td>
<td>TC selects both direct and indirect instructional approaches, including task and inquiry (problem solving). Students are given choices throughout the lesson about equipment, starting points or partners or groups.</td>
<td>TC selects both direct and indirect instructional approaches, including cooperative learning, peer teaching and child-designed instruction. Students are given multiple choices during the lesson.</td>
</tr>
</tbody>
</table>

<td><strong>6.2 Participate in activities that enhance collaboration and lead to professional growth and development.</strong></td>
<td>TC participates in professional-growth and -development opportunities when directed to do so. TC meets the minimum professional-development requirements for the program. TC fails to document any collaboration with faculty, parents, supervising teachers and/or service projects as required by the program.</td>
<td>TC participates in professional-growth and -development opportunities when they are offered. TC participates in professional opportunities beyond the program requirements, such as major’s club, and attendance at state conventions, health fairs and Jump/Hoops for Heart activities. TC documents collaboration with faculty, parents, supervising teachers and/or service projects as required by the program.</td>
<td>TC takes every opportunity to participate in professional-development opportunities. TC participates in professional opportunities beyond the program requirements, such as making presentations at professional conventions, providing leadership in student groups and planning activities. TC documents collaboration with faculty, parents, supervising teachers and/or service projects beyond program requirements.</td>

<tbody>
<tr>
<td>6.3 Demonstrate behaviors that are consistent with the professional ethics of highly qualified teachers.</td>
<td>TC dresses inappropriately for school setting, in violation of school and university dress codes. TC fails to maintain confidentiality regarding colleagues, students or families. TC demonstrates favoritism for specific students or groups of students. TC has inappropriate contact with students outside of the classroom or uses inappropriate language with or around students. TC exhibits behaviors that are indicative of gender or racial bias.</td>
<td>TC’s dress is consistent with school and university guidelines. TC maintains confidentiality regarding colleagues, students and families. TC demonstrates behaviors that are consistent with equitable treatment for all students. TC maintains professional relationships with students in and out of the school setting.</td>
<td>TC’s dress exceeds the requirements of the school and university guidelines. TC maintains confidentiality regarding colleagues, students and families. TC demonstrates behaviors that are consistent with equitable treatment for all students and that foster an environment in which all students are respectful of one another. TC maintains professional relationships with students in and out of the school setting.</td>
</tr>
<tr>
<td>6.4 Communicate in ways that convey respect and sensitivity.</td>
<td>TC interacts with others in a professional manner, but sometimes resorts to the use of “slang” terms during conversations with students. TC sometimes “puts down” students in front of classmates. TC occasionally demonstrates behaviors or language that is insensitive to cultural differences.</td>
<td>TC attempts to teach in a culturally responsive way. TC demonstrates respect for cultural differences and exhibits teaching behaviors that are inclusive. TC avoids sarcasm and “put downs” while interacting with students.</td>
<td>TC teaches using culturally responsive approaches. TC demonstrates respect for cultural differences and creates an atmosphere in the classroom that is inclusive. TC never uses “put downs” or sarcasm while teaching.</td>
</tr>

Glossary of Terms

Notes:

1. Readers of this document should become thoroughly familiar with the Glossary of NCATE Terms as found in the NCATE Unit Standards in *Professional Standards for the Accreditation of Schools, Colleges, and Departments of Education*. The following terms are supplemental and specific to NASPE’s 2008 National Standards for Initial PETE.

2. Throughout the standards and elements, the term **teacher candidate** refers to pre-service teachers in an initial preparation program. The term **student** refers to the school-age (K-12) student.

3. Throughout the standards and elements, the term **physically educated individuals** refers to NASPE’s (2004) definition of a physically educated person, who:
   - Has learned skills necessary to perform a variety of physical activities.
   - Knows the implications of and the benefits involvement in physical activities.
   - Participates regularly in physical activity.
   - Is physically fit.
   - Values physical activity and its contribution to a healthy lifestyle.

### Instructional Feedback

Specific, intentional, well-timed augmented information provided by the teacher candidate to the student that serves the primary purpose of increasing student motor skill learning and performance. Some intentional feedback (used sparingly) also may serve to increase motivation and/or reinforce appropriate behaviors during practice or performance.

### Assessments/Appropriate Assessments

Tools and strategies used to gather information about a K-12 student’s level of achievement. Assessments are used to make inferences about the level of student learning and to inform the teacher candidate about the enhancement of student learning. Appropriate assessments are linked to lesson/unit goals and objectives, conducted within the context of instruction, and match the developmental level of both the student and the teacher candidate.

### Critical Elements

Essential components of skillful movements (e.g., in throwing, the elements include arm, body and leg actions).

### Developmentally Appropriate

The outcome of a developmentally and instructionally appropriate program of physical education is an individual who has the knowledge, skills and confidence to become and remain physically active for a lifetime. Appropriate instruction in physical education incorporates the best-known practices, derived from both research and teaching experiences, into a pattern of instruction that maximizes opportunities for learning and success for all students. (NASPE, 2008) Developmentally appropriate instruction takes into account the fact that “developmental
change is qualitative, sequential, directional, cumulative, multifactorial and individual.” (NASPE, 1995, p. 17)

Dispositions
The attitudes, values and beliefs demonstrated through both verbal and non-verbal behaviors as educators interact with students, families, colleagues and communities. These professional dispositions support student learning and development (NCATE, 2008).

Diverse Student Needs/Diversity
Differences among groups of people and individuals based on ethnicity, race, socioeconomic status, gender, exceptionalities, language, religion, sexual orientation, geographical area and developmental differences.

Health-Enhancing Fitness
Intentional and systematic physical activity that positively enhances the components of personal physical fitness (i.e., cardiovascular and muscular). Improving these components reduces the risk of disease and illness and enhances overall health and well-being.

Instructional Cues and Prompts
Verbal cues that direct or focus the student’s attention to the key elements of a skill or prompts the student to perform key movement components of skills (e.g., “platform with arms” for volleyball forearm pass).

Instructional Feedback
Specific, intentional, well-timed, augmented information provided by the teacher candidate to the student that serves the primary purpose of increasing student motor skill learning and performance. Some intentional feedback (used sparingly) also may serve to increase motivation and/or reinforce appropriate behaviors during practice or performance.

Instructional Formats
Teaching approaches ranging from direct to indirect.

Learning Experiences
Planned instructional activities to help meet learning goals and objectives for K-12 students.

Movement Patterns
Fundamental movements are the essential building blocks to skillful movement. These include locomotor (e.g., jumping and running), non-locomotor (e.g., bending and stretching), and manipulative (e.g., striking and throwing) movement patterns.

Non-Verbal Communication
Techniques of communicating that use expressions, gestures, body posture and/or signals rather than the spoken word. For these purposes, it also can include materials, technology and alternative resources such as task cards or poster boards.

Performance Concepts
Knowledge and action concepts related to the skillful performance of movement and fitness activities. This includes the aspects of (1) correct selection or “what” to do (e.g., when to choose a drop shot or why to choose low repetitions for strength
training) when performing a skill; and (2) correct execution or “how” to do a skill (e.g., execute a wrist flick or speed of lowering the weight in a repetition) (Rink, 2003).

**Personal Competence in Motor Skill Performance**

The teacher candidate demonstrates movement skills and movement patterns at a level necessary to perform a variety of physical activities. Teacher candidates are expected to be minimally competent in many movement forms and proficient in a few movement forms (NASPE, 2004). Teacher preparation programs can assess personal competence of teacher candidates in a variety of ways.

**Personal Competence in Health-Enhancing Fitness**

The teacher candidate demonstrates that he/she is physically fit and participates regularly in physical activity that enhances personal fitness and overall health (NASPE, 2004). Teacher preparation programs can assess teacher candidates’ achievement and maintenance of health-enhancing levels of physical fitness in a variety of ways.

**Reflection**

Mental process in which the teacher candidate considers relevant instructional and contextual factors (e.g., student diversity, developmental differences, type of motor skill), the achievement of student learning outcomes and the use of assessment data to modify instruction and enhance future student learning. This is the last element of the reflective cycle.

**Reflective Cycle**

The systematic and comprehensive process of using assessment data to inform the teacher candidate about student achievement of learning outcomes and the modification of instruction (based on assessment data) to enhance student learning.

**Short- and Long-Term Plans**

Short-term plans refers to daily lesson plans, while long-term plans refers to unit plans (weeks or collection of daily lessons). Daily lesson plans comprise unit plans.

**Students**

School-age K-12 students.

**Teacher Candidates**

Pre-service teachers in an initial teacher education program.

**Technology**

Tools used appropriately to work effectively with students and increase student learning and performance. Technology either is discipline-specific or tailored to achieve lesson/unit learning goals and objectives.

**Variety of Physical Activities**

Specific motor skills and activities that, together, constitute K-12 physical education. These may include but are not limited to: aquatics, dance and rhythms, fitness activities, fundamental motor skills, lifetime leisure activities, outdoor activities, sports (team, individual and dual).
