ABOUT SHAPE AMERICA

SHAPE America — Society of Health and Physical Educators is the national organization that serves as the voice for 200,000+ health and physical education professionals across the United States. The organization’s extensive community includes a diverse membership of health and physical educators, as well as advocates, supporters, and 50 state affiliate organizations.

Since its founding in 1885, the organization has defined excellence in school-based health education and physical education. For decades, SHAPE America’s National Standards for K-12 Physical Education have served as the foundation for well-designed physical education programs across the country. The organization also collaboratively developed and owns the National Health Education Standards which provide the framework for effective skills-based health education instruction for all K-12 students.

SHAPE America provides programs, resources and advocacy that support an inclusive, active, kinder and healthier school culture, and champions health and physical educators at every level, from preschool to university graduate programs. Our health. moves. minds.® FUNdraiser helps teachers and schools incorporate social and emotional learning so students can thrive physically and emotionally, while raising funds to build and increase capacity for school health and physical education programs.

EDITORIAL GUIDELINES

- Advertisers who want the benefit of contributing editorial content must agree to meet SHAPE America’s required Editorial Guidelines and Writing Tips. SHAPE America reserves editorial rights and approval of all Promoted Content Posts.

- The tone and quality of Promoted Content Posts should reflect SHAPE America editorial values — and primarily serve the reader. This means no “hard sell” of products and services — nothing that would be considered a commercial or sales pitch.

- Effective blog content should be honest and provide value to the reader, even to someone not interested in buying or using a particular product or resource.

- Remember who the target audience is and write for them. Most blog posts are intended for the professional HPE audience, including health and physical education teachers, HPE professionals in higher education and future professionals.

- All Promoted Content Posts will be labeled and tagged as "Promoted Content," in addition to one other category tag of the advertiser’s choice.

- Paid advertising placements are suppressed on Promoted Content Posts. SHAPE America reserves the right to showcase Year-Round Mission Partner logos in the right column of the post.

WRITING TIPS

- Use conversational, simple language that is easy for readers to digest.

- Use short sentences, short paragraphs, headers and lists to make the post more readable.

- Avoid excessive acronyms.

- Use text links within the post when referencing information from other articles or websites.

- Suggestions for crafting a headline that will capture readers’ attention:
  - Use numbers and lists. Starting your headline with a number helps it stand out. Readers love lists, too, because it gives them a clear idea of what to expect in the article.
    - **Example:** 7 Fun Back-to-School Activities for Elementary PE
  - Use words that are proven to attract readers. Examples include: Best; Reasons; Ways; Tips; Tricks; Secrets; Ideas; Techniques; Strategies; and Facts.
    - **Example:** 3 Strategies for Getting More Professional Development Funding
  - Explain the educational value of the blog post using attention-getting words and phrases. Examples include: "How to"; "101" "Complete Guide" and "Beginner's Guide."
    - **Example:** Creating a Before-School Walking Club: A Beginner’s Guide

CONTENT DEADLINE
Content is **due two (2) weeks prior** to the agreed upon publish date.

TEACHING HPE IN A CHANGING WORLD

Get ready to learn about new techniques... new technologies... and new standards.

Students and teachers have been through a lot in the last few years. And now, educators everywhere are realizing that “students are different.” Tried-and-true teaching techniques are less effective. The 2024 SHAPE America National Physical Education Standards and 2024 SHAPE America National Health Education Standards are reflective of this changing landscape in education. The revised standards introduce new concepts and instructional strategies that aim to reach today’s students. We invite you to learn more about all that is in store for the 2024 SHAPE America Summer Institute and we look forward to having you join us for this exciting summer professional development experience focused on helping educators get better equipped to teach HPE in this rapidly evolving world!
