SHAPE America is the nation’s largest organization of health and physical educators. Joining SHAPE America means connecting with a community of like-minded individuals, staying on top of trends, and having access to the profession’s most accurate and objective measures of teaching and learning.

Your membership dues help support the many projects, publications, and resources that SHAPE America produces for the profession.

What are some of the new benefits of membership?

1. **SHAPE America’s Health Education Assessment Tool (HEAT)** — SHAPE America has reviewed materials created initially through the Health Education Assessment Project (HEAP) in 1993. These assessments have been updated for 2019 and will now be available to all SHAPE America members through an interactive database.

2. **Professional Learning Institutes (PLIs)** — Held throughout the country, PLIs are designed to bring together hundreds of health and physical education teachers, administrators, teacher educators, trainers, and researchers who are focused on promoting best practices and improving student learning. See current dates and locations.

3. **Event Discount Packages** — Select and Premier members will receive registration discounts to all SHAPE America events (including SHAPE America’s National Convention & Expo). Basic members will receive discounted registration to one PLI per year.

4. **Enhanced Digital Access** — *Momentum* magazine is now delivered exclusively in a digital format. This new platform will be more accessible and offer members useful links to products and resources. The SHAPE America blog is also moving to a new platform, and we’ll be publishing even more frequent content related to HPE. Many long-time members will also see a transition to digital membership cards soon. Digital membership cards will provide members with the flexibility to print their own identification at home.

5. **Expanded Member Support** — SHAPE America’s membership services will be expanding, and plans are in place to increase customer service coverage throughout the year.
