

My name is Heather Bachman. I am a Boise State graduate and live and teach in the Boise area. I have been teaching for 17 years as an elementary PE teacher in the West Ada district. I also am my districts K-12 PE and health lead. I have been SHAPE Idaho's executive director for 2 years now. Before that I have served on the board in several positions from district rep. to president. This year I was honored and surprised to have received SHAPE Idaho's distinguished service award. I have also reached beyond Idaho to serve on the Western District board as member at large. Serving on boards and committees for SHAPE Idaho and SHAPE America has been a great honor. I have enjoyed meeting so many great professionals and future professionals along the way and advocating for our profession. I truly love what I do and do what I love. It would be my pleasure to serve once again on the Western District board.
