17 years on the board

Offices held:

Jump & Hoops for  State Coordinator, President Elect, President, Past President.

Executive Director since 2008

SHAPE America Joint Projects 2014-2017.

Northwest District State Advisory Council

I have been a long time participant in the talks between Northwest and Southwest Districts concerning joining

together as one district for quite some time before it finally happened. I am so excited for the Western District! We have quality people who have shown a willingness to work together for our teachers in the West. The possibilities are endless and I look forward to continuing our work to make the Western District a positive success and to provide quality professional development to our teachers. #West Is Best!

Thank you for your consideration.
