Active kids learn better. When students get more time for health and physical education (HPE) they do better physically, mentally, and emotionally.

### NEVADA PHYSICAL EDUCATION

**SHAPE America Recommendations:**

All children deserve the benefits of a well-rounded education which includes effective health and physical education provided by trained and certified teachers.

- 30 minutes of daily PE for elementary grade levels
- 45 minutes of daily PE for secondary school grade levels

### DOES NEVADA...

**71% of Nevada high school students did not attend PE class at all during an average school week.**

**TAKE ACTION:** Any red “☒” above indicates an opportunity for improvement.

### PARENT SUPPORT FOR HPE

91% of parents feel that there should be more physical education in schools, particularly for addressing obesity.

PE + Health = Student Success

Benefits of Health & Physical Education to Students
- Positive relationship with academic achievement and test scores
- Positive association with attention, concentration and on-task behavior
- Encourages lifetime healthy habits
- Strategy for reducing childhood obesity
- Reduces discipline referrals and participation in high-risk behaviors

Schools Can Influence Healthy Behaviors

Nearly 92% of students that attended health education class believe it is important to their future health.

Findings from 2016 myCollegeOptions®/SHAPE America research study: National sample includes 132,096 high school students.

Physical Fitness and Achievement Test Performance

Average Composite of 20 Student Brains Taking the Same Test

Children who have PE are 2.5 times more likely to be active adults

Physical Activity Council. 41,000 Interviews on Sedentary Lifestyles. 2010.
