Active kids learn better. When students get more
time for health and physical education (HPE) they
do better physically, mentally, and emotionally.

**WASHINGTON PHYSICAL EDUCATION**

SHAPE America Recommendations:
All children deserve the benefits of a well-rounded education which includes effective health and physical education provided by trained and certified teachers.

- 30 minutes of daily PE for elementary grade levels
- 45 minutes of daily PE for secondary school grade levels

70% of U.S. high school students did not attend PE class at all during an average school week.

**SPEAK OUT FOR HEALTH & PE**

The Every Student Succeeds Act (ESSA) identifies school health and physical education (HPE) as part of a student’s well-rounded education, giving all HPE teachers an opportunity to elevate their program and gain support from their school and local community.

**PARENT SUPPORT FOR HPE**

91% of parents feel that there should be more physical education in schools, particularly for addressing obesity.

Stay informed. Get involved.

Sources:
PE + Health = Student Success

Benefits of Health & Physical Education to Students
- Positive relationship with academic achievement and test scores
- Positive association with attention, concentration and on-task behavior
- Encourages lifetime healthy habits
- Strategy for reducing childhood obesity
- Reduces discipline referrals and participation in high-risk behaviors

SCHOOLS CAN INFLUENCE HEALTHY BEHAVIORS

Nearly 92% of students that attended health education class believe it is important to their future health.

Physical Fitness and Achievement Test Performance

Increased Fitness Levels = Higher Test Scores!

Average Composite of 20 Student Brains Taking the Same Test

CHILDREN who have PE are 2.5 times more likely to be active adults

PE in Schools and Long Term Effects

Children who have PE are 2.5 times more likely to be active adults

Findings from 2016 myCollegeOptions®/SHAPE America research study: National sample includes 132,096 high school students.
